

To stay relevant in today's rapidly changing world ...

1. Value *the way you work* as much as you value products and services.
2. Re-evaluate the corporate structures that may prevent employees from different departments from working together
3. Encourage creative collaboration

We offer practical methods for productive collaboration

We don't just talk theory -- Adaptive Capacity helps teams put **Design Thinking** concepts into practice. Our methods empower teams to focus on key values that lead to productive work.

- **Working on projects** *over working in departments*
- **Collaborative problem solving** *over individual tenacity*
- **Adapting to change** *over maintaining tradition*
- **Continually improving process** *over business as usual*

Our collaborative project management process has a **20% higher success rate** than traditional methods

Are you ready for change?

Adaptive Capacity offers organizations a process to improve the way their teams work together. The teams we work with become more successful & improve their capacity to:

Rapidly identify new business opportunities and ideas

Complete projects successfully by knowing the best next steps

Leverage empathy and culture as competitive advantages

Ready to start benefiting from creative collaboration?

Adaptive Capacity offers several options to best meet your needs

Creative Collaboration Boot Camp

Through sessions that combine training with interactive exercises, we will help your team work better together.

2 on-site workshops

Foundations of Project Design

We will train your team to identify opportunities and design projects together, using our hands-on, collaborative process.

4-month engagement

Adaptive Project Management Process

Increase your team's project performance, accountability, and transparency with our custom system. We'll train and support you throughout the process.

Strategic Customer Engagement Package

Using our collaborative methods and tools, we'll help you complete a customer-focused project, including a rebranding effort, website, brochure, or promotional materials.

Rent-a-Team (Embedded Project Team)

Expand your capacity while mastering adaptive methods by adding Adaptive Capacity consultants to your team.

Customized Consulting

For organizations seeking specific integration of adaptive process improvements, we can find a solution to meet your needs.

Need ongoing project support?

All of our packages can be extended through our "Sprint Subscription" model that places an Adaptive Capacity consultant in a project lead role.
